

LYNSIE R. ARAGON

(512) 736-8054 | Lynsie.aragon@gmail.com | [LinkedIn](#) | Queens, NY | **FULL STACK DEVELOPER**

SUMMARY

Love creating beautiful, user-friendly applications and squashing complex bugs; Background in legal proves to be useful in completing deadlines, communicating across multiple teams, and paying meticulous attention to detail and logic

SKILLS

Languages: JavaScript (Vanilla/ES5/ES6), TypeScript, Ruby, SQL, HTML5, CSS3

Web Development: React, Redux, Rails, Node.js, RSpec, Playwright, PostgreSQL, MySQL, MongoDB, Express, Git, GitHub, Google Maps API, Restful APIs, Documentation

Management: Unit Testing, Integration Testing, Agile Methodologies, Asana, Monday, Sharepoint, Microsoft Office

EXPERIENCE

Full Stack Developer – *Agility Consultants, LLC – Remote* Sept 2023 – present

- Collaborates with agile team to develop internal tools for large clients by executing business requirements, adapting to/foreseeing changes in products, and delivering quality products by deadlines
- Focuses on creation of frontend/interface: follows specs/designs, implements error handling, and debugs data flow, resulting in a seamless user experience and maximum efficiency of product
- Raises potential issues of current product design and implements proposed changes, creating a cleaner product
- Drafts documentation of product

Intellectual Property Paralegal – *Fabricant LLP – Rye, NY* Jan 2021 – Apr 2022

- Leveraged boolean and keyword search terms to query legal cloud databases (SQL) and extract relevant case documents to efficiently analyze documents and prepare for hearings, trials, and depositions
- Supported team of 12 attorneys with heavy caseload: timely court submissions, organizing e-files, communication

Securities Paralegal – *Hach Rose, LLP – New York, NY* Sept 2019 – Jan 2021

IP Legal Assistant – *Desmarais, LLP – New York, NY* Jun 2018 – Aug 2019

WEB APPLICATIONS / PROJECTS

Yapp | **Full stack clone of Yelp** [Live Site](#) | [GitHub](#)

Allows users to search for and review restaurants (CRUD) – Ruby on Rails, PostgreSQL, JavaScript, React, Redux

- Created design docs that served as blueprint for backend and frontend development: app schema, backend and frontend routes, state structure, key app features
- Utilized BCrypt to salt and hash user passwords for optimal user auth security

Trip It | **Group application** [Live Site](#) | [GitHub](#)

Allows users to organize trips and events with other users (CRUD) – MERN stack

- Served as Front End lead utilizing React, Redux (thunk), and JavaScript to render all app components such as trip index and event show pages ensuring seamless user experience
- Established and maintained git workflow with team: committed code in 30 minute increments, communicated when merge conflicts arose, and used clear commit messages to provide code clarity

VOLUNTEER

Tech Coach – *Search and Care – New York, NY* Aug 2023 - present

- Assists senior citizens with personal tech devices by troubleshooting and providing simple explanations and solutions to their device issues, resulting in more comfortable, confident, and independent living

EDUCATION

App Academy – *New York, NY* Completion: Mar 2023

- Immersive software development program focusing on full-stack web development

Prairie View A&M University – *Prairie View, TX* Graduated: May 2017

- Bachelor's of Science in Criminal Justice / PVAMU Women's Bowling team
